PRB-420-MRI / CRYO
Fiber Optic Temperature Probe

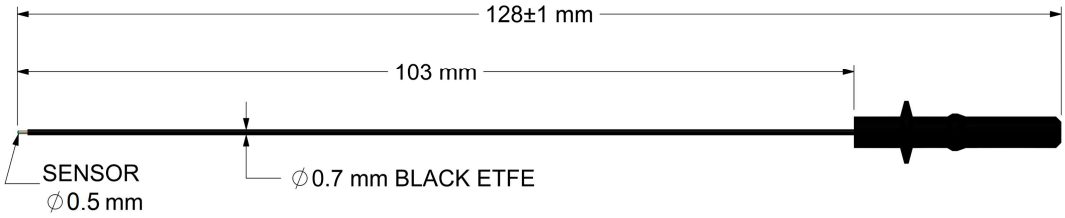
MRI and Cryogenic Temperature Sensing

Non-magnetic, Non-Conducting, Optical Fiber Probes with Exceptional Precision

OSENSA's fast response PRB-420 contact temperature probes provide accurate and reliable temperature sensing for a variety of life sciences, microwave and laboratory research applications requiring immunity to high intensity electro-magnetic fields and RF energy. These probes are constructed with an exposed sensing element on the tip and are ideal for MRI electrode, cryogenic tissue, or electronics package sensing. They can handle temperatures from -95°C up to 180°C while providing extremely fast response times.

Product Specifications

PRB-420-0.1M-HFBR-MRI



System Specifications	PRB-420-0.1M-HFBR-MRI	PRB-420-0.1M-HFBR-CRYO
Calibrated Accuracy[1]	± 0.15°C	± 0.25°C
Stability (15min)	± 0.02°C	± 0.03°C
Noise (1 second averaging)	± 0.01°C	± 0.02°C
Measurement Range	-40°C to 120°C	-95°C to 180°C
Immersion Response Time Constant	180ms	180ms
Tip Diameter	500µm	500µm
Minimum Bend Radius	50mm	50mm
Probe Materials	Polyimide & ETFE	Polyimide & ETFE

Notes:

1. Submersion in aqueous solutions like PAA gel or Saline will shift the temperature reading 0.2°C higher with stability reached in 30min. After removing from water, the probe will return to original calibration after 1 hour drying at 40°C.
2. Compatible with OSENSA's FTX-300-LUX+ series fiber optic signal conditioners.
3. Custom lengths available upon request.
4. For longer distances add extension cable EXT-400-10M-HFBR-STM, in lengths from 2m to 20m.

TECHNICAL SUPPORT
OSENSA Innovations offers on-site support, commissioning, and training for all of its products. For immediate assistance with any technical issue, please contact support@osensa.com or call 1-888-732-0016.

WARRANTY INFORMATION
OSENSA Innovations stands behind its products and services. All fiber optic temperature probes and signal conditioners ship with a full one year repair or replacement warranty. You may also purchase an extended five year warranty. Some conditions apply.

CUSTOM OEM SOLUTIONS
OSENSA offers cost-effective design and consulting services at discounted rates for high-volume OEM customers. Let the engineering team at OSENSA Innovations help you rapidly develop custom probes for your research application. OSENSA's team has many years of experience designing fiber optic temperature probes for various laboratory environments.
